STORYTELLING THAT MATTERS

Emotion Network is an Italian **edtech & media company** founded by a group of senior international co-founders, on the belief that stories matter when lived, and telling them well is our mission.

To **Unlock Human Potential.**

Our vision is to put the human being and their emotions back at the centre of development, **connecting people**, inspiring through **storytelling, content production**, and helping companies and people live through this moment of great change, where continuous learning is inevitable, by working on **inspirational corporate learning**, executive coaching, personal and professional skill development.

THE VALUE OF HUMAN RELATIONSHIPS

Social interactions and the **quality of interpersonal relationships** play a crucial role in our lives, significantly enhancing our satisfaction and fulfillment.

In the business world, **every connection can open doors to new opportunities** for growth and development, as well as spark innovative ideas.

That is why we produce **events**, tell **stories**, circulate energies and **network** people, their emotions and experience.
